"Throughout the years I have seen our work-family commit to doing whatever it takes to survive and thrive. From capital investment, to quality customer service to, the latest, being installing state-of-the-art cameras to capture live eagle viewing. The owner, Betty Anne Faulkner, her nephew and General Manager, Chris Lepine, are dedicated and passionate. I'd like to think that we're like a fine wine...we just keep getting better with age, says Ted Swaine, Director of Operations.

Sandpiper Golf Course is a resort-style course situated on a historic piece of land alongside the tranquil, waters of the Harrison River. It's 'forest golfing' at its finest with abundant wildlife consisting of eagles and sandpipers and two distinctly different environments — the open fairways alongside the river and the 180 ft. Douglas Firs.

Recent announcements include a rebrand. Named after the Pretty family that played a critical role in developing the Harrison Mills area, Sandpiper Golf Resort is now called Pretty Estates Resort—*home to Sandpiper Golf Course, Rowena's Inn on the River and River's Edge Restaurant.*
